## About

Hi, my name is Like Zheng. Throughout my 5-year career, I have spent the first 3 years as a software engineer and the latter 2 years primarily working as a product manager, with a decent understanding of UI design. In my spare time, I enjoy writing code and experimenting with new technologies. My expertise leans more towards front-end development as opposed to back-end, and I have a strong focus on user experience, which is why I've taken up learning about product design and UI design. I value teamwork and have successfully built a 6-member front-end team from scratch, fostering an agile culture along the way.

## Experience

### ByteArk Tech Ltd.

Aug 2022 - Present

Community & Product Manager

Remote

Manage and compile information from the Filecoin community, as well as engage in the design of applications based on Filecoin.

- Designed and took part in the development of a Filecoin remote sealing (Sealing-as-a-Service) platform.
- Publish the internal Filecoin Weekly newsletter, which covers topics such as Filecoin-related news, events, code updates, articles, and videos. Successfully released 10 issues, accumulating views of over 200.

### ByteArk Tech Ltd.

Aug 2021 - Jul 2022

Product Manager

Hangzhou, China

Led a team focused on developing applications based on Filecoin and IPFS.

- Managed a team of 5 people, including 2 Front-End Developers, 2 Back-End Developers, and 1 UI designer.
- Build a prototype of cloud storage application based on Filecoin and IPFS.

### Muri Tech Ltd.

Mar 2021 - Jul 2021

Front-End Lead

Hangzhou, China

During the probationary period, assisted the team in optimizing Git workflow and advancing the development of design systems, leading to an early promotion to Front-End Team Lead.

- Led a 5-member front-end team, responsible for developing and maintaining web applications.
- Migrated code from UmiJS to NextJS and conducted refactoring, improving SEO, reducing package size by 10%, and enhancing the development experience.
- Developed Git workflow based on Trunk-Based Development and authored documentation.

### ByteArk Tech Ltd.

Feb 2019 - Feb 2021

Front-End Lead

Hangzhou, China

Started as a Front-End Engineer and was promoted to Front-End Leader upon successful completion of the probation period. Spearheaded the establishment of the Front-End team, developing the team's development processes and standards.

- Managed a team of 8 developers to develop web applications, mobile apps, and WeChat mini-programs.

- Established the team's development processes and standards, including Git usage guidelines, code review guidelines, and design system.
- Researched Agile development methodologies, implemented best practices to improve team performance, and produced over 10,000 words of documentation.

## // **Ningbo Port Information and Communication Ltd.**

Aug 2018 - Jan 2019

Front-end Developer

Ningbo, China

Efficiently developed and meticulously maintained a website for port declaration system using Java and ExtJS.
